

HUMAN LINE OF DESCENT STUDY GUIDE

With this study guide you travel step by step through the major turning points in evolution that connect the human species to earlier life forms.

Meet 10 Superheroes of Evolution.

1. We all have DNA and are made of cells.

2. We are all made from complex (eukaryotic) cells.

3. We are all multicellular.

4. We all have brains.

5. We all have backbones.

6. We all have limbs.

7. We all have belly buttons.

8. We all have hands.

9. We all walk on two feet.

10. We are all human.
